SAPSTi-2-100	2" x 100 ft.(50mm x 30m) includes 10 x S/S clips	\$194.36

Titanium exhaust/muffler wrap, made from premium quality Titanium fiber material and woven into a tight multi-flex construction to be stronger than typical wraps.

Titanium wrap offers much higher heat resistance (over 100% higher than typical glass fiber wraps) in an extremely tough woven construction.

Each roll comes complete with high quality marine grade stainless steel easy fit clip ties.

- Withstands 1200 °C direct heat! (1400 °C Radiant!)
- Insulating the exhaust pipework maintains gas temperature and increases gas flow rate.
- Unique woven construction for minimal gaps, maximizing insulation effect.
- Protects from burn injury through accidental contact with hot pipework.
- Tough construction offers resistance from stone and debris damage.
- Extremely flexible for easy install – will not shrink & no need to wet to install.
- Great looking carbon-fiber style finish.
- Comes complete with quality stainless steel easy fit clip-ties.
